Testimonial for *byRhyta.com*

byRhyta designed from scratch a website that perfectly fit my needs. All I did was provide some rough text and photographs and, from this, *byRhyta* produced a beautiful, attractive website that is simple and intuitive but also very creative.

To get an idea of what I wanted, I should provide some information about myself. I am a musician: I am the Director of Music Ministries at Trinity Episcopal Church, New Orleans; I am a producer of several weekly concert series as well as a yearly J.S. Bach festival; and I am a pianist and organist. I contacted *byRhyta* because I needed a website. And I wanted this website to address all the aspects of my work - and to do so in a professional but creative way. And I wanted it to be especially personalized - I didn't want something generic. And I wanted it to be intuitive and easily updated in case of last minute scheduling changes and the like. Clearly, I had lots of wants, but unfortunately I had little time. *byRhyta* was ready for the job, and the end result was exactly what I had envisioned.

To start, *byRhyta's* work was extremely professional: beautiful layout; simple and intuitive; easy to navigate. In addition, *byRhyta* produced almost all the content from the very rough materials that I provided. *byRhyta* was also extremely patient with me, yet very efficient and effective with implementation once I provided her with what was needed. And finally *byRhyta* was always on call (or email to be specific) - I would request quick content changes, schedule updates, etc., and next thing I knew, they were done.

But with *byRhyta* I got more than just professionalism, I got a website designed just for me. I did want an intuitive template with quick loading links and easy navigation, but I also wanted it to be creative - from the basic design to the content and pictures. Without need for elaboration, *byRhyta* got this immediately. And *byRhyta* used her expertise in digital visual arts to alter and enhance the photographs that I provided, producing striking pictures to match the striking design.

To conclude, if you want a professional website tailored to your exact needs, I strongly recommend *byRhyta*.
